

This workshop is for high school students with an IEP or 504 Plan; their parents/guardians; school personnel and any others involved in the college planning process. Students will learn what they need to know to prepare for their transition to any type of college whether it be 4-year private/state university, a 2-year community college, a vocational-technical college or any other institution of higher education.

Highlights include:

- Differences from high school
- Roles & responsibilities
- Accessing disability services and supports
- College students share their stories: What they wished they knew before college and what they know now

Wednesday, April 26, 2017

8:45am – 1:00pm
